

## BIRD ISLAND LODGE

### LOCATION & DESCRIPTION

This small coral island is located at the far north-east edge of the Seychelles, and has been described by some as the most beautiful island on Earth. Bird Island Lodge is situated on the beach and it is one of the last true pieces of paradise on the planet, with spectacular bird and fish species. The lodge is only 30 minutes by plane away from Mahe island.

Another natural miracle here is the existence of the sea turtles who lay their eggs here, undisturbed. The island is also home to Esmeralda, the (supposedly) largest and oldest tortoise in the world.

Bird island is the perfect place for those who loves nature.
